Periodic reporting of ultrasonic range in m	1	1	
Periodic reporting of IR range in m	1	1	
Periodic reporting of temperature in C	1	1	Very jumpy in graphs??
Results graphed at host	1	1	
Results graphed continuously based on reporting period	1	1	
Demo delivered at scheduled time and report submitted in team folder with all required components	1	1	
Investigative question response	0.5	1	Did not cite data source for answer. Partially correct.
Total objective criteria	**6.5**	**7**	

Qualitative criteria	Rating	Max	Comments
Quality of solution	2	5	Use multi-axis display. Problems with the stability of the sensed data mar this soltuon.
Quality of report.md including use of graphics	2	3	Report is a little choppy. Not telling a very cohesive story about how this goes together. looks rushed.
Quality of code reporting	2	3	Yes headers, but do the readmes too.
Quality of video presentation	3	3	Please spend more time in the written report than the video one (the video one has graphics and design elements not in written report -- want these in written part).

Comments

Objective criteria met but problem with sporadic data corruption on all of the sensed values. Requires more debugging.
